## About

I'm Dandi Pratama, an Informatics Engineering graduate from Universitas Islam Riau, currently awaiting my graduation ceremony. I'm passionate about technology and software development, and I enjoy creating digital solutions that are useful and impactful. During my studies, I actively worked on various projects and gained experience working both independently and as part of a team. I'm accustomed to completing responsibilities effectively and on time, with a strong motivation to continuously learn new technologies and develop my skills. I'm now ready to begin my professional journey and contribute to building innovative technology solutions.

## Education

- 2022 – 2026 | Universitas Islam Riau — Bachelor of Informatics Engineering | GPA: 3.46/4.00  
Studied Web Development, Mobile Development, Backend, Database, Algorithms, Data Structures, Software Engineering, and IoT. Final Project: Developed EyeMate, an AI-based mobile application using YOLOv8 for object detection and VQA to assist people with visual impairments in recognizing objects and reading text through voice and text guidance.
  - 2019 – 2022 | SMK Taruna Pekanbaru — Computer and Network Engineering  
Studied computer systems, networking, Linux, Microsoft Office, IP configuration, network administration, and website development using WordPress.
- 

## Work Experience

01 July 2025 – 29 August 2025 | PT Pertamina Refinery Unit II Dumai

- Designed UI/UX prototypes using Figma for a chatbot-based website aimed at facilitating field report submissions to the relevant departments responsible for equipment and resource requests.
  - Assisted with employee data entry and administrative data management.
  - Conducted direct field observations of the oil processing and management operations.
  - Assisted the CCTV division in monitoring employee activities and work operations at PT Pertamina Refinery Unit II Dumai.
- 

## Projects

- Designed and developed EyeMate, an AI-based mobile application using YOLOv8 for object detection and VQA to assist people with visual impairments in recognizing objects and reading text through voice and text guidance.
- Developed the SIOPLAS website to manage task assignments and quarterly reports from supervisors to staff, with an AI-powered feature for automatic report summarization.
- Wedding Rental Website Developed a web-based wedding rental platform featuring product catalogs, service details, pricing, and online booking functionality.

- Developed a web/mobile-based attendance system that allows students to record attendance for each course, manage attendance records, and monitor attendance history efficiently.
- Developed a mobile application that helps users manage medication schedules by providing reminders for taking medication regularly and keeping track of medication routines.

## Skill

### Technical Skills

- JavaScript
- Python
- Golang
- React.js
- Vue.js
- FastAPI
- Flutter
- React Native
- MySQL
- MongoDB
- REST API
- Git, GitHub
- Figma

### Soft Skill

- Teamwork
  - Communication
  - Problem Solving
-
